

The Plus side of cleaning: the Kärcher K 55 Plus cordless electric broom is ideal for intermediate cleaning and achieves a high level of cleanliness in no time. In addition to the standard brush, the device also includes a special pet hair brush, which removes pet hair effortlessly and effectively from all floors, particularly carpets. The pet hair brush is enclosed in a mesh sleeve, which can simply be removed for cleaning. The hair gets caught on the brush and can be disposed of easily. The standard brush allows sweeping very close to edges, up to a distance of 1 mm. The waste container can be conveniently emptied without the operator coming into contact with the dirt. Thanks to the wall bracket and battery charger, the device is always ready to use. The removable battery can be charged both inside and outside the device. The cordless electric broom can be conveniently switched on and off using the foot switch. The individually adjustable telescoping handle ensures a comfortable posture. At around 2 kg, the device is easy to transport and manoeuvre. The device's low height means that it can also be used under furniture.

K 55 Plus

- Brush replacement for flexible application possibilities
- Two different brushes included
- Brush replacement at the push of a button

Technical data
